
HALOGEN LAMP 5000 and 7000 Watts

TECHNICAL SHEET

USE

Metal halide lamp for the photoexposing of flat or round screens treated with UV sensitive photoemulsions

TECHNICAL FEATURES

- Highly actinic light radiation lamp
- It does not emit gas or fumes
- Average life from 400 to 500 hours/work
- If provided with pre-selector the lamp can be used even at half power
- This lamp allows a result of flat and round screens exposing with very precise definition
- During its work we recommend the use of a protection system for the eyes (special glasses or UV curtain for separation from the light source)

RECOMMENDED PRODUCTS

Emulsions series CERAGEL SCD , CERAGEL CK and FLASHGEL SHW
